EDUCATION

Private TAKEV Anatolian and Science High Schools **Sep 2022 – Ongoing**
Turkish-Mathematics Concentration in Turkish National High School Curriculum **Izmir, Turkey**

- **Anticipated Graduation**: June 2027
- **Relevant Courses**: Mathematics, Turkish Language & Literature, English, History, Geography, and more
- **Distinctions**: Earned Honor Certificates for Grades 9 through 11

EXPERIENCE

MartinBauer **Jul 2025**
Intern (3 Weeks, Full-Time) **Vestenbergsgreuth, Erlangen-Höchstadt, Germany**

- Rotated through three departments over three weeks, gaining exposure to Product Management (week 1), Sales (week 2), and Product Development (week 3) Departments, learning about each team's operations, workflows, and responsibilities within the company
- Did inventory tracking using SAP to identify targets for restocking and generate a comprehensive report on unused stock, and familiarized myself with how companies use enterprise resource planning software
- Shadowed department meeting on addressing client complaints about inventory conditions after the stock sat in storage for too long and learned about the logistics of sustainable inventory storage and ensuring customer satisfaction

ACADEMIC ENRICHMENT ACTIVITIES

BTK Akademi: Project and Risk Management [Certificate]

- Studied core project management and risk management principles, including project planning, execution, and risk identification/mitigation strategies
- Gained some grounding about lifecycle framework selection and methodologies such as Predictive/Waterfall, Agile/Scrum, and Hybrid Life
- Built foundational knowledge on which method is to be chosen by looking content, time and cost variables in projects

BTK Akademi: Market Research and Pricing Strategies

- Saw how to determine suitable markets, market segmentations by grouping target audiences using demographic, geographic, psychographic, and behavioral criteria. and pricing for products and services
- Learned about Primary and Secondary Data Sources and Qualitative vs. Quantitative Research
- Studied competitor mapping, SWOT analysis, and the customer decision journey from initial need to purchase
- Reviewed practical pricing tools including product bundling, price elasticity, and behavioral factors like price anchoring

BTK Akademi: Getting to Know the Customer

- Learned how to create personas for customers to figure out customer pains and gains
- Reviewed practical methods for mapping the customer journeys and analyzing purchase decision factors

Branding 101 [**Certificate**]

- Completed a course covering brand strategy development, from defining core brand principles (vision, mission, values) to creating visual identity and implementing brand interactions for social impact organizations
- Developed practical skills in building brand identity, optimizing audience experiences, and translating brand concepts into tangible marketing assets through real-world case studies from leading organizations
- Gave and received feedback from peers taking the course

Humboldt Institute [**Certificate**]
German Course **München, Germany**

- Improved German language skills through daily classes, cultural excursions, and activities for two weeks and built friendships with an international group of my peers in July of 2024
